

Powierzchnie lakierowane, powlekane i szklane:

Usuwanie zabrudzeń przy pomocy miękkiej gąbki lub ściereczki z mikrofibry i standardowych środków do mycia nie zawierających składników ściernych. Nie można używać środków czyszczących, które zawierają silne kwasy lub kwaśne sole, jak również ścierek, które mogą uszkodzić powierzchnię (np. druciaków do szorowania garnków, czy twardej, ostrej strony gąbek do zmywania).

Stal nierdzewna:

Pielęgnacja z zachowaniem tych samych, podanych wyżej wskazówek, jednak przy zachowaniu stale takiego samego kierunku szczotkowania lub szlifowania (nie można wykonywać ruchów okrężnych). Powstałe ślady pociągnięć dają się zazwyczaj usunąć przy użyciu standardowych środków do czyszczenia i pielęgnacji stali nierdzewnej.

Rooted in Königsberg – globally successful!

Our facilities in Europe:
 Königsberg, Germany (headquarters)
 Bückeberg, Germany
 Schwarzhof, Germany
 Okříšky, Czech Republic
 St-Leonards-on-Sea, Great Britain

 Anderson, USA
 Guasajuato, Mexico

FRÄNKISCHE is an innovative, growth oriented, medium-sized family-owned enterprise and industry leader in the design, manufacturing and marketing of technically superior corrugated pipe systems for drainage, electrical, building technology and industrial applications.

We currently employ about 2,800 people worldwide. Both our many years of experience and expertise in plastics pro-

cessing, our consulting services and the large array of products are highly valued by our customers.

FRÄNKISCHE is a third generation family owned business that was established in 1906 and is now run by Otto Kirchner. Today, we are globally represented with production facilities and sales offices. The proximity to our customers enables us to develop products

and solutions that are perfectly tailored to our customers' needs. Our action and business philosophy focus on our customers and their needs and requirements for our products.

FRÄNKISCHE – Your partner for sophisticated and technologically advanced solutions.

 INDUSTRIAL PRODUCTS

Lackierte Oberflächen, beschichtete Oberflächen sowie Glasoberflächen:

Entfernung von Verschmutzungen mit einem weichen Schwamm oder einem feuchten Mikrofaser Tuch in Verbindung mit handelsüblichen Reinigungsmitteln ohne scheuernde Bestandteile.

Keine Verwendung von Reinigungsmitteln, die starke Säuren oder stark saure Salze enthalten sowie keine abrasive Schwämme (d.h. keine Stahlwolle; bei Schwämmen nur die weiche Wischseite, nicht die aggressive Scheuerseite verwenden).

Edelstahl:

Wie bei den vorangegangenen Hinweisen, jedoch die Reinigung möglichst immer in Bürst- bzw. Schliffrichtung durchführen (keine kreisenden Bewegungen).

Entstandene Griffspuren lassen sich in der Regel mit handelsüblichen Edelstahlreinigungs- und Pflegemitteln abreiben.

Varnished surfaces, coated surfaces and glass surfaces:

Remove stains with a soft sponge or a damp microfiber cloth combined with commercial non-abrasive cleansing agents.

Do not use cleansing agents with acids or acid salts neither abrasive sponges (i.e. no steel wool, sponges only with the soft side- not the aggressive abrasive side).

Stainless Steel:

In general, comply with the above mentioned care instructions.

In addition to that, do the cleaning always in the direction of the brush respectively with the grain (no rotary movements).

Finger prints can be removed with commercial stainless steel cleansing agents and care products.

Modelli verniciati, modelli rivestiti e modelli in vetro

Rimuovere le macchie con una spugna morbida o un panno in microfibra umido in combinazione a detergenti non abrasivi commerciali.

Non usare detergenti a base acida o salina né spugne abrasive (con setole in acciaio, con particelle vetrate).

Modelli in acciaio inossidabile:

In generale, seguire le istruzioni per la cura di cui sopra. In aggiunta a ciò, pulire sempre nella direzione del grano della superficie (senza movimenti rotativi).

Le impronte possono essere rimosse con detergenti per acciaio inox comunemente in commercio.
